

HOVDE FOUNDATION

2014 ANNUAL REPORT

Building hope.
Bringing change.
Loving the world's most
vulnerable children.

MISSION & VISION

- Building Hovde Homes - shelters for vulnerable children
- Funding research towards a cure for multiple sclerosis

There is nothing more beautiful than the smile of a child who knows he is safe, valued, and loved. Our vision is to restore vulnerable children who have faced abuse and exploitation, so they can smile again.

MULTIPLE SCLEROSIS RESEARCH

One of the founding objectives of the Hovde Foundation is funding research towards the cure for Multiple Sclerosis (MS). This debilitating disease currently affects well over 400,000 Americans and [conservatively estimated] 2.5 million people worldwide. Diagnosed with the disease in 1991, Eric Hovde was driven to join the fight against MS.

For more than 20 years, Eric Hovde has not only given financial resources to fighting MS, but has also served in leadership positions on the board of directors of several MS-related organizations, such as the National MS Society, MS International Federation, and The Myelin Project.

Through the foundation and personal contributions, Eric Hovde & Steve Hovde have supported Multiple Sclerosis research efforts totaling more than \$2 million since 1995 and will keep giving until a cure is found.

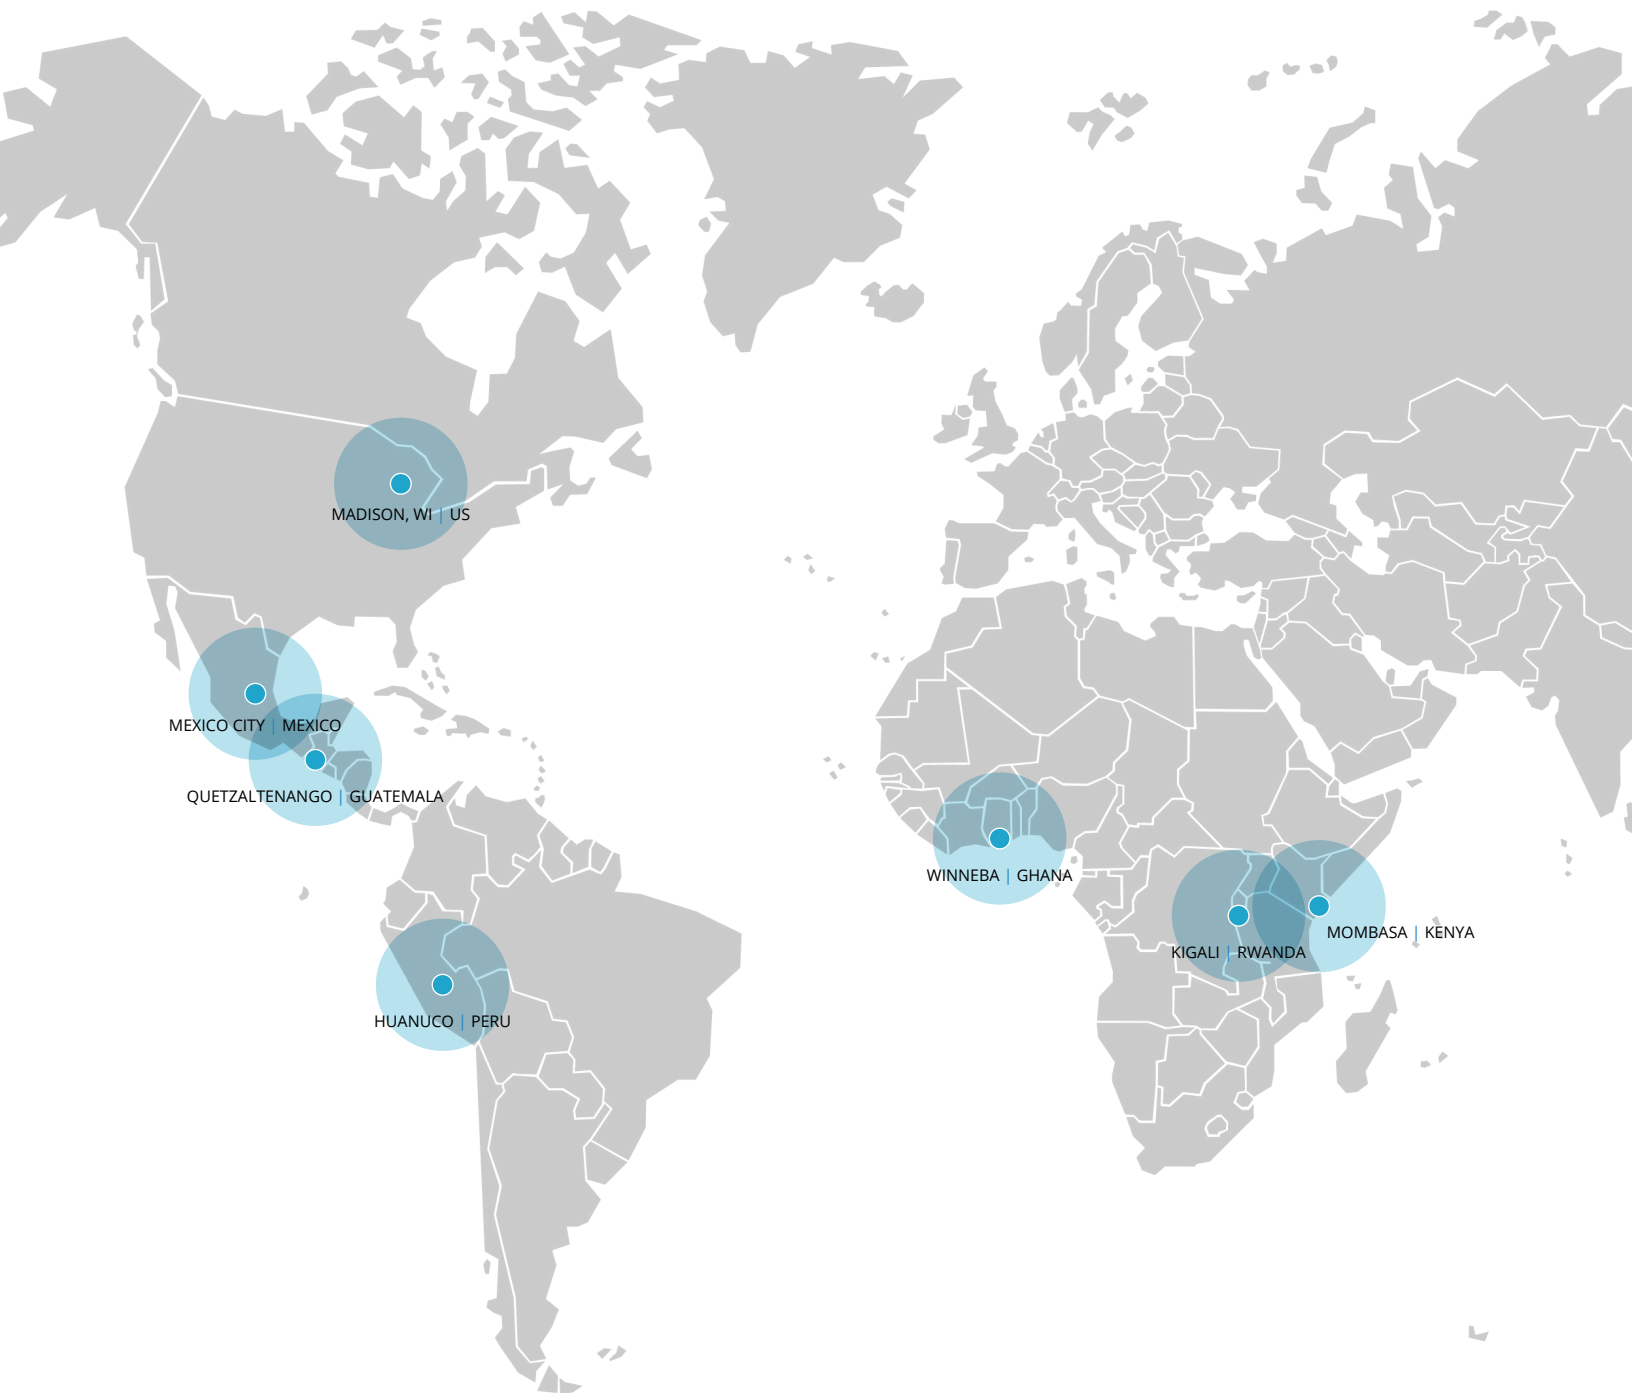

HOVDE HOME INITIATIVE

The focus of the Hovde Homes is to provide shelter, health, community development, and youth education to children in crisis. To date, there are seven Hovde Homes in Madison, WI, Mexico, Peru, Guatemala, Rwanda, Kenya, and Ghana.

With average capacity of 40-50 children, each home is operated by a carefully-selected local partner with professional experience providing appropriate cultural, physical, and psychological care for children in their community.
